

Problem. Solved.

Reduce shrink without increasing costs.

Even as retail shrinkage increased to \$54 billion last year*, Loss Prevention professionals are being asked to do more with less... less funding, less information, fewer resources and a dwindling capacity in the criminal justice system. CEC's Restorative Justice Program uses mobile technology and restorative education to help retailers reduce shrink at no cost, while changing lives and strengthening communities.

Contact CEC today to learn how to initiate a free pilot in your stores.
